

Amendment and Response
Applicants: William B. Dawson et al.
Serial No.: 10/668,796

Attorney Docket No.: KEY1028USC2

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in this application:

Claims 1 to 19 (Canceled).

20. (New) A landscaping block system for use in forming a landscape edging or border comprising multiple blocks, each block having:
- a first surface and an opposed second surface;
 - first and second generally opposed sides, each side extending from the first surface to the second surface;
 - opposed substantially planar first and second ends, each end extending from the first surface to the second surface and from the first side to the second side, the first end being larger in surface area than the second end;
 - the first side including a first substantially horizontal ledge extending between the first and second ends;
 - the second side including a second substantially horizontal ledge extending between the first and second ends; and
 - the blocks being configured such that a first or second substantially horizontal ledge of a first block overlaps with a first or second substantially horizontal ledge of a second block when the first and second blocks are used to form the landscape edging or border.
21. (New) The landscaping block system of claim 20 wherein at least one of the first and second surfaces has a smooth texture.

Serial No.: 10/668,796

Attorney Docket No.: KEY1028USC2

22. (New) The landscaping block system of claim 20 wherein at least one of the first and second surfaces has a roughened texture.
23. (New) The landscaping block system of claim 20 wherein the blocks are configured such that when the first and second blocks are used to form the landscape edging or border the first surface of the first block and the second surface of the second block form a portion of an upper surface of the landscape edging or border.
24. (New) The landscaping block system of claim 20 wherein the blocks are configured such that when the first and second blocks are used to form the landscape edging or border the first surfaces of the first and second blocks form an upper surface of the landscape edging or border.
